[DMCMA – District and Municipal Court Management Association – This site is dedicated to the professional court managers of the district and municipal courts of Washington State.](#)

**Website** – The website build has been completed and is ready for launch. The goal for 2023 will be to update all Chairs and Co-Chairs with biographies and photos. The other goal for 2023 is to create content for the committee subpages. Social media was created as well and in 2023 will be utilized for events and updates regarding the organization.

**Electronic Forms** – DMCMA purchased a JotForm subscription that is used to develop professional forms and surveys to capture membership data, conference registration, and poll/survey data electronically instead of keeping hard copies. The membership application and DMCMA Academy/Conference registration processes have been restructured to use JotForm.

**Office 365** – DMCMA purchased Microsoft 365 Business Basic accounts, as a centralized email structure specific for DMCMA business. This provides a structure so board members/committee chairs will not have to use individual court email addresses. All board members have an email account and access to Microsoft Teams, web versions of Excel, Outlook, PowerPoint & Word.
